

DigiKey 855, 865, and 810 Spec Changes (last edited 9/28/2023)

DigiKey has updated the specs to clarify which segments / elements are mandatory and which are optional, and code lists have been defined.

- 855 PO Acknowledgement:
 - PO1 – Segment updated to mandatory.
 - PO110- PO125 – Added to allow for any item identifier type.
- 865 POC Acknowledgement:
 - BCA01 – Removed 01 Cancellation.
 - BCA02 – Defined list of Acknowledgment Types.
 - BCA07, BCA08, BCA09, BCA10 – Removed.
- 810 Invoice:
 - IT1 – Changed to mandatory.
 - BIG10 – Added for additional invoice number.
 - SAC02 (item level) – Added additional codes allowed.
 - SAC12 (item level) – Removed ZZ from the codes allowed.
